INTRODUCTORY.
1905-1906.

The third edition of the R. L. Polk & Co.'s Billings City and Yellowstone County Directory with Red Lodge and Carbon County added, is presented with the assurance that the work is as complete and accurate as it is possible to produce. All the features of the largest metropolitan directories are incorporated in the work.

In no line of business is experience more necessary than in directory work, and the experience gained in nearly a third of a century in this work has been used to excellent advantage in the production of the volume herewith presented.

This volume contains a complete City Directory of Billings and Red Lodge and of all the villages in Yellowstone and Carbon Counties.

It also contains a full and complete list of all the land owners and paying farmers in the County, giving first the name of the owner of each piece of property, its location indicating the section upon which it is situated, the township and the range, the number of acres, with the assessed valuation, and the post office address of the owner.

A complete list of all the banks, churches and societies and all the institutions and societies existing within the Counties will be found complete and complete description of the Counties and villages in the

such as

it is an un-
excelled medium for use in the purchase of goods, and every business man should avail himself of the opportunity which it offers for the full and proper classification of his business, and for keeping his card where it may be found at all times by those who seek such information.

Keep the city directory in a convenient place for frequent reference, and invite your customers to use it. You will extend your acquaintance and advertise your business, and your establishment will be more profitable and popular.

The publishers wish to extend thanks for the liberal patronage bestowed upon the work, and for the courtesies extended to its representatives.

Respectfully,
R. L. POLK & CO.,
Helena, Montana.

August, 1905.

BILLINGS CITY.

So rapid is the march of progress in the Northwest that it does not take long for a village to develop into a populous, thriving city. A decade ago Billings was a village of no pretentions. To-day it is a city of considerable dignity and is putting on metropolitan airs. It has commercial business houses of surprising size; it has dwelling houses as fine as can be found in the Northwest, and is increasing in population rapidly. Billings is fortunate in having as citizens some of the most progressive men of the state; for, after all, it is the man who develops, and nature only supplies the material. Geographically, Billings is again fortunate. It is situated in the center of the state from east to west, and is the main gateway for the commerce coming from the south. It is located in one of the most fertile valleys in the West—the Yellowstone. It has back of it men who are determined to make it the Chicago of the Northwest, and there are those who predict for Billings such brilliant future that they freely assert that in less than a generation it will be the largest city in Montana.

Billings is situated at the junction of the two great transcontinental lines, the Northern Pacific and Burlington railways, and from it lead out to the south branch lines of the first named company that tap the vast coal and oil fields to the south. The Burlington has a line surveyed from Billings to Great Falls, 250 miles to the northwest, which, when built, will place this city in direct communication with the great grazing regions of the British Northwest territory. The Northwestern Railroad is headed this way also, and is more than a mere possibility of the near future. If built, this road will come up through the great oil fields of northern Wyoming and southern Montana, which Billings brains and capital are now rapidly developing.

The Great Falls, Lewistown & Billings Stage runs a continuous service between Great Falls, Belt, Armington, Geyser, Stanford, Utica, Lewistown, Giltedge, Fort Maginnis, Grass Range, Flatwillow, Musselshell, Fattig and Summit to Billings, a distance of 285 miles, making the entire distance in less than three days. The largest and best equipped stage line in the United States; running through the best and richest farming, stock raising and mining country in the Northwest. Parties looking for homes or investments should not fail to take this route. Good horses, good coaches and trusty drivers a specialty. First-class accommodations for passengers, baggage and express. Carrying the U. S. mail, Great
Northern and Northern Pacific express. Agents at all the above towns. Stage leaves Great Falls daily at 7 a. m. Leaves Billings daily, except Sunday, at 6 a. m. Head office, Great Falls, Montana.

The city is situated in the Yellowstone valley about 100 miles east of the first or eastern range of the Rockies, whose snow-capped peaks are constantly in view. Its population is approximately 7,860 people, and it is a perfect city within itself. Towns of five times its population in the Eastern and Central states do not transact as large a volume of business annually. Billings is the largest inland wool market in the world, shipping annually about 15,000,000 pounds of this product. It is equipped with a good sewer system, an improvement that is neglected in most cities of its size, but which should be the first matter for consideration in the building of a city. It has a waterworks system that cost more than $250,000, and it is the best lighted city in the United States, without exception. It has a first-class fire department system, fitted with the Gamewell alarm system, and a city hall and fire department headquarters combined that was completed more than one year ago at a cost of $50,000. Yellowstone county has just completed a magnificent courthouse at a cost of $105,000. It has four large school buildings in course of construction, and the city, tract of land, a body of 30,000 canal has transformed into a rich and beautiful agricultural country.

To the west of Billings the valley of the Yellowstone broadens to a width of ten miles in many places, and for a distance of forty miles along this beautiful stream the lands are intersected with irrigation canals, chief of which is the canal of the Big Ditch Company. Here is the great alfalfa garden of eastern Montana, and
here are wintered annually thousands upon thousands of sheep, many of which are shipped to the Eastern markets during the months of January, February and March. Many cattle are also shipped from this section of the country.

In the past four years the city has more than doubled its population, and its present growth is unretarded. Five handsome business blocks are now in course of construction, one of which will be a modern four-story store and office building, equipped with elevator service.

Billings lies within 12 miles of the ceded portion of the Crow Reservation, and this city will be the principal point for registration. If you want to see a live Western town, come to Billings.

Billings is the metropolis of eastern Montana, commercial center, drawing trade from a vast scope of country, 150 miles on the north and the same distance on the south and 75 miles on the east and west.

The elevation of Billings above the sea is 3,112 feet. The mercury seldom drops below 20 degrees below zero. It does this occasionally, but, because of the dry air, it is not felt so severely as zero weather in the Central or Eastern states.

One of the most attractive propositions open to the immigrant at the present time is feeding cattle and sheep for market. Since irrigating systems have been established in the vicinity of Billings hundreds of farmers have embarked in this business with splendid results. Instead of being forced to send stock to market from the range and meet the competition from the sands of cattle and sheep are now fed on abundantly on the irrigated land, and the result is to turn off a finished product which the corn-fed steers of the Central states over 10,000 hay-fed cattle were shipped the great bulk of which sold at $5.00 A large percentage of the cattle were over 10,000 hay-fed cattle were shipped the great bulk of which sold at $5.00 A large percentage of the cattle were

Every year the extension of irrigated fields for the farmer, and as yet the advancement very rapidly as the country land is selling at $25@$75 per acre, productiveness of this soil is wonderful, and one would have to really see it to believe what can be produced on an acre. There is no system of farming that beats irrigation. The farmer has water always at his command, and he can use just as much as is needed to grow an ideal crop. This is why larger potatoes, larger melons
and in fact larger everything is grown on irrigated land than in a country where the natural rainfall is depended upon.

The opening of the Crow reservation for settlement next year will give to Billings the greatest boom it ever enjoyed. About 1,000,000 acres will be opened to eligible settlers, and some of this land is the best in the whole Northwest. It is a sandy loam and is very similar to the soil in the Yellowstone valley.

Through the organized efforts of the progressive business men of Billings, the town has forged rapidly ahead within the past year. Propositions involving the securing of new industries are taken up by the Commercial Committee of the Billings Club, while the aggressive advertising and exploiting of the resources of the section is done by the Publicity Bureau, popularly referred to as the Boosters' Club. The state headquarters of the Montana Business Men's League, which is made up of the various commercial organizations in the state, is also in Billings, and, in fact, had its origin here.

Within the past year Billings has secured the location of a million-dollar beet sugar factory, which will be completed in time to handle next year's crop. This factory will take the product of 10,000 acres of land, and will distribute about $750,000 annually in the city and valley.

Billings is the Mecca of thousands of farmers this year, and, as a natural result, every line of business has flourished in the most prosperous condition. Since January 1, 1905, over $500,000 have been spent in buildings and increased before the close of the past year.

The seventy-mile irrigation company, reclamation lands, completed. Cost $900,000, for the land, and $900,000, for reclamation. The beginning of the work to reclaim 35,000 acres of Crow Reservation.

The location in Billings of United States Reclamation Service headquarters for Northwest. One hundred and fifty men engaged in the seven great projects under way.

A million-dollar beet sugar factory that has contracted for 10,000 acres of beets, and will distribute $750,000 annually with farmers, and will employ 120 men at works.

The expenditure of over $500,000 in buildings of various kinds since Jan. 1, 1905.
The extension of long distance telephone lines to points 125 miles distant.

Securing passage of Crow Reservation bill opening 1,150,000 acres to settlement.

The building and operation of a “thousand cow” creamery that is to-day making wealth for farmers.

The erection of the most magnificent courthouse in Montana at a cost of $105,000.

A record of over nine millions in bank clearings—the largest of any town of similar size in the United States.

**NUTSHELL STATISTICS.**

Population, 7,860; altitude, 3,112 feet; assessed valuation, $3,000,000; a fine opera house; free public library; city and rural free mail delivery; commodious hospital; eight church organizations; electric light, power and water plant; two telephone lines with 800 phones; east, west, north and south long distance telephones; one machine shop; a packing house and cold storage plant; a 6,000,000 capacity brick yard; a 15,000 barrel brewery; a flour mill, capacity 150 barrels a day; a creamery; six school buildings; two modern first-class hotels; one daily and two weekly newspapers; five miles of railway sidings; a mountain of building stone; two hundred miles of irrigating canals within twenty-five miles; a great wool market; a wholesale and retail trade; thirty miles of improved streets; abundant shade trees and beautiful lawns; the finest costliest residences in Montana; the most luxurious and best appointed hotel in Montana; a great undeveloped water power; a climate that is unsurpassed.

**POPULATION.**

There are in the Billings portion of this book 3,144 names. Making the usual deductions for corporations, firms and those living beyond the city limits, and applying the multiple of \(2\frac{1}{2}\), which is believed to correctly represent the names of women and children not included in the city directory, a population of 7,860 is indicated.

The work is submitted to the daily use and criticism of an exacting public with confidence that it will be found a truthful, complete and accurate guide to the city, its people and all the institutions and organizations that make up the city.

The building was erected and presented to the city of Billings by Mr Fred Billings, Jr, to be known as the Parmly Billings Memorial Library. The building was erected in 1901 and is prominently located in the business portion of the city. It is built of native sandstone and granite, and is a model library building in every respect, costing about $30,000. The expenses for both building and furnishings were borne by Mr Frederick Billings, Jr. The library contains 4,300 volumes for the free use of its patrons. It is open from 9 a m to 9 p m, Sundays from 2 to 6 p m, and closed on holidays.

Registered Letters or Parcels.

The fee is 8 cents in addition to the regular postage.

Special Delivery System.

Established Oct. 1, 1886, for all post offices in the United States. Every article of mailable matter, to which is applied a 10-cent special delivery stamp, in addition to the postage required by law, will, upon its arrival by mail, have immediate delivery by a special messenger within the carrier limits of any free delivery post office, or within one mile of any other post office in the United States to which it may be addressed. This privilege covers registered matter and mail matter of all classes, including drop letters and other mailable matter deposited for local delivery. A record is made at the office of destination of all articles received for special delivery, and a receipt is taken from addressee. Hours for special delivery, 7 a.m. to 9 p.m. at all post offices, and as late as 11 p.m. at all free delivery post offices.

FOURTH WARD—All that portion of the city lying south of the center of the right of way of the Northern Pacific Ry Co, as originally granted, and east of the center of South Twenty-ninth street.

STREET AND AVENUE GUIDE.

Explanation—On referring to this directory it will be noticed that the names of the streets and avenues follow each other in strictly alphabetical order without regard to location.

The city is divided into two divisions, northern and southern, the Northern Pacific Ry being the dividing line.

The numerical streets and avenues on the north side are designated as N 27th and 1st av N, those on the south side as S 27th and 1st av S.

The numbers run 100 to a block, the even numbers being found on the south and west side and the odd numbers on the north and east side of all streets and avenues.

Alderson av, from Division northwest to W 2d, sixth north of Broadwater av.

Time Deposits Pay Interest at 6 Per Cent., Payable Quarterly

Aetna Banking and Trust Co.
CAPITAL, $100,000.00

Eastern Office........ 1222 "F" Street, N.W., Washington, D. C.
Western Office........ Cor. Main and Broadway, Butte, Montana.

You Need a Bank Account

Many people are kept from enjoying the convenience, satisfaction and profit of a growing bank account, because they live where there is no bank, or are so situated that they cannot conveniently go to the bank during banking hours.

Our patented system of "BANKING BY MAIL" makes it possible for everyone to have a bank account, no matter where he may live. This system is the development of eleven years of practical experience, and is, we believe, the only practical system now in use. Thousands of people are now doing their banking by mail with perfect safety, and without the annoyance and waste of time of going personally to the bank.

Savings Accounts Pay Interest at 5 Per Cent. Compounded Quarterly

While each man needs a bank account, he may need an entirely different kind of an account from his neighbor, and for a different reason. Experience has taught us to provide different methods for these different needs.

Your account is checked and a statement furnished you every time you either deposit or draw money.

A. B. CLEMENTS
CASHIER
Installment Accumulation Certificates $1 per month, pays $200 in ten years, $600 in twenty years; withdrawable on thirty days' notice

Aetna Banking and Trust Co.
CAPITAL, $100,000.00

Eastern Office........1222 "F" Street, N. W., Washington, D. C.
Western Office........Cor. Main and Broadway, Butte, Montana.

Checking Accounts pay interest at 2½ per cent. on minimum balance.

No man’s business is so small that he does not need a bank account, and no other one thing contributes to thrift and certainty in the transaction of ordinary everyday business to the extent that a bank account does.

Your business with us will be held strictly confidential; no prying neighbor will know anything about your account.

Prepaid Accumulation Certificates: Money doubles itself in ten years. Proportionately for other periods, and may be withdrawn on thirty days' notice.

Make Your Money Draw Interest
Interest Works While You Sleep

We will be glad to correspond with you regarding your bank account. Write us. We can help you.

The Big Store

The Best of All

When You Want
A Good Suit
Overcoat
Tie or Hat
Shirts
Hosiery or Underwear

Write to Hennessy’s, Butte

It is well known this is the leading store in the Northwest, with a stock of 
merchandise worth half a million dollars.

It contains everything that a man wants to wear, as well as all kinds of 
garments, hats, shoes, gloves, stockings, suits, wraps, etc., for women, boys and 
children. Other departments contain silks, dress goods, notions, domestics, 
furniture, curtains, draperies, trunks, valises, shoes, slippers. Butterick patterns, 
corsets, millinery, groceries, wines and liquors, meats, fruits, vegetables, 
china, glassware, bric-a-brac, refrigerators, etc., at prices lower than elsewhere.

Write for what you want. Address all letters

RED LODGE.

The county seat of Carbon County is a thriving, bustling little city of something over 3,000 people, and has an assured and brilliant future before it. The city is situated at the terminus of the Rocky Fork and Cooke City branch of the Northern Pacific railway, 44 miles from the main line, and has a daily passenger train service. It has a good waterworks system, owned by the city; an electric light service; two telephone exchanges, reaching out into the surrounding country; a fire department that would be the pride of any city of like size; three banking institutions; three hotels, one of which can be classed among the best in the west; scores of handsome homes and business blocks. It is the center of the largest known measures of semi-bituminous coal in the West, known as the Rocky Fork and Bear Creek coal fields, the former of which has been mined extensively for the past 19 years, employing continuously about 600 men at remunerative wages. The latter named coal field, viz.: the Bear Creek field, is quite as extensive as the Rocky Fork, is located only three miles distant, is now about to be opened up and extensively exploited, and, because of its location, will be tributary largely to the present Coal City. Red Lodge also is the center of a large agricultural, stock-growing and wool-raising area, and exports annually large consignments of grains, hay and vegetables. The variety of its resources, the beauty of its environs, the purity of its water supply, and the health-producing qualities of its climate all combine to add to its attractiveness as a home and a business location. Red Lodge has a Board of Trade, including all business and professional men in the city; and a county fair organization, with extensive fair grounds, race track, exhibition buildings etc. These are a few of the material advantages possessed by Red Lodge. In addition to them, her intellectual and spiritual welfare has not been forgotten. Two public school buildings and a fine high school edifice, in which a county free high school will be opened this year, two excellent newspapers, six churches, and everything pertaining to the comfort and happiness and prosperity of the people.

Nestled at the head of one of the most fertile valleys in the state, surrounded upon every hand by rich treasures of agricul-

GROCERIES

HARDWARE

and MINERS' SUPPLIES

Red Lodge, Montana
atural and mineral wealth, and unbounded opportunities for stock-raising, Red Lodge sits as the mistress of a vast territory of wonderful resources. Into her lap is poured with a prodigality that knows no ending the enormous output of this section. The farmer naturally seeks Red Lodge to find a market for his produce; the stockman gravitates this way as naturally as the water courses flow to the sea; while the coal miner finds this city to be his abiding habitat. But the coal miner prosecutes his search for mineral treasure not alone. His brother in the Sunlight Basin and in the New World mining district vie with each other in developing and opening up copper, gold and silver, and lead mines, and their development means yearly a large expenditure for machinery and material, and the major portion of this trade comes to Red Lodge. All of these circumstances contribute their full quota to the advancement and the upbuilding of this fair city but probably no one industry is of so much importance as that controlled by the Northwestern Improvement Company.

After the Northern Pacific railway had constructed its line up the Yellowstone valley, and on across the Rockies to the slope, there was a continuous search for the needed fuel with which to drive the iron horse up the granite sides of the great ranges. The first explorations were made west of here, but while the quality of the coal was good the veins proved pockets or broken seams. Other searches proving unavailing, the railway officials finally took notice of the fields in this vicinity. Walter Cooper of Bozeman and Samuel Word of Helena took hold of the work of opening up the seams. Later on Henry Villard, T. F. Oakes and other Northern Pacific directors interested themselves, and with the construction of the Northern Pacific branch from Laurel in 1888, the town of Red Lodge came into instant existence. The story of the mine has been one of continual progress, until to-day its output is 2,000 tons a day, with a payroll amounting to over $45,000 per month. Every thirty days it distributes this sum among its 600 employees, who reside in Red Lodge, many of whom are married and own their homes. Daily shipping some sixty carloads of coal, used on railroads, in smelters, mills and for domestic purposes from the Missouri river at Mandan, N. D., to the Washington state line, it can readily be seen that the coal mining industry of Red Lodge plays a very important and transcendent part in the continued growth and development of the
city. Red Lodge is only 45 miles from the National Park by trail over the Beartooth mountain range. A movement has been inaugurated to secure a government road through the forest reserve over the Beartooth plateau to connect with the National Park government roads; which, if successful, as it should be, will open up a route of magnificent mountain scenery, past innumerable lakes abounding in fish, snow-topped mountains, imposing waterfalls and through a region frequented by large game, such as bear, elk, mountain sheep, deer and antelope.

**POPULATION.**

Red Lodge, according to the U. S. census in June, 1900, was 2,152. There are in Red Lodge portion of this work, 1,728 individual names; using the multiple of 2½, which it is found correctly represents the number of women and children whose names are not included in the directory, a population of 4,320 is indicated for Red Lodge at the present time. This growth is highly encouraging to those interested in the city's welfare.

116 North 27th Street, BILLINGS, MONT.

258

R. L. Polk & Co's

made the dividing line; all streets east of said line have for the prefix (E) to their name, as E 12th street, meaning that said street lies east of Billings av.

All streets west of Billings av have the prefix (W), as W 12th, meaning that it lies west of Billings av. Twelfth street, the second street south of the Court House, has been made the dividing line for all avenues running north and south, all those running north from Twelfth street have the prefix (N) attached, as N Platt av, and all those running south from Twelfth street have the prefix (S) attached, as S Platt av.

The numbering on all streets running north and south begin with 101 on each side of Twelfth street, each block beginning with a new hundred. The numbers on all streets running east and west begin at number one on each side of Billings av, and each block either east or west of Billings av beginning a new hundred, the east side of Platt av is 101, Haggin av 201. All even numbers are on the west side of the avenues running north and south, and on the north side of the streets running east and west.

Adams av, north and south from 12th, first west of Word av.
Billings av (the main business street) is the dividing line for streets running east and west.

Weaver's Old Stable

AT WEAVER’S OLD STABLE
You will find nothing but old ramshackle rigs, tow string harness, and
crowbait stock. No drivers will be furnished because we don't know the road.
Horses left in our care will be starved to a finish. We have never had
neither do we expect to have, a wisp of hay or an oat in the stable.
Yes, we have an old broken-down dray, but it won't go.
In-10s-ly Yours,
J. R. WEAVER

ATTORNEY AT LAW
Office over Red Lodge State Bank
RED LODGE, MONT.
Carbon county was created in 1895, and has an area of 3,000 square miles. The industrial resources of the county are mining, farming and stock raising. The principal valleys are the Clarke Fork, Rocky Fork, Stillwater and the Rosebud and its tributaries.

Not in all the broad domain of the "Treasure State of Montana" are the natural resources more fittingly adapted for the agriculturist or stock-grower than are those within the boundaries of Carbon county.

The numerous small streams flowing down its fertile valleys furnish an abundant supply of water for irrigation not surpassed by any other agricultural section of the state.

In years past the hills and valleys of what now comprises the county of Carbon were monopolized by large herds of cattle and sheep, but since the valleys have been settled upon and the streams fenced in the great herds have been reduced; now the stock is almost entirely owned by the smaller owners and ranchmen. The hills and grazing lands back from the streams will always afford plenty of pasture lands for small herds of stock, and the rapid development of the coal mining industry provides a ready home market for products of both farm and ranch.

Alfalfa, staple fodder for cattle, sheep or hogs, is being raised by nearly every ranchman in the county. The yield for a season is from three to six tons to the acre. Barley, equal in every respect to the noted product of the Gallatin valley, is grown here, and finds a ready sale in the eastern states. Oats yield from 60 to 80 bushels per acre, wheat 35 to 40 bushels and other grains in proportion. Flax is also grown successfully, and farmers are encouraged to make it a staple crop. Potatoes attain unsurpassed perfection. Small fruits are grown in all the valleys and yield largely. Their culture has paid well and the farmers are every year devoting more attention to their production. The experiments in the growing of apples, grapes and plums, proving successful, many orchards are being planted, promising to make Carbon one of the fruit counties of the state. Strawberries attain a size and flavor unsurpassed. The rapidity with which vegetation responds to the genial influences of warmth and moisture is
marvelous, and the productiveness of the soil excites the wonder of those unaccustomed to farming operations under the influences of irrigation.

However much Carbon county may be blessed with agricultural and stock-growing resources, the fact must not be lost sight of that her coal mining industry is one of the chief institutions of the state. The entire county is underlaid with measures of semibituminous coal. At Red Lodge mines have been operated extensively since 1889. At Bridger the coal measures have been developed and a mining plant is erected which is shipping from 50,000 to 150,000 tons of coal a year, and it is safe to estimate that from 5,000 to 10,000 men will eventually be employed in Carbon county in this single industry. In 1901 the total production of coal in tons was 492,696, and the amount paid out for labor was $553,954.

South and west of the railroad shipping points of Carbon county are the quartz mining districts of Sunlight, Wood River, Stinking Water, Grey Bull and New World. At no distant day smelters will be constructed in the vicinity of the coal measures, and these ores will be treated without incurring the expense of transportation charges.

Along the base of the Beartooth range of mountains, in the southwest corner of the county, are immense reefs of the finest quality of limestone, from which a great deal of lime has been manufactured, and is being used almost exclusively in the towns of southeastern Montana.

Along the Clark Fork river placer gold has been mined for a number of years past. The gravel bars along the river yield an average 30 cents to the cubic yard. Miners and teams and scrapers have been making fair wages mining this gold for several seasons.

Iron ore also abounds in the mountains, and will become valuable for smelting and manufacturing purposes.

Immense sulphur deposits and mountains of the purest marble are situated on some of the tributary streams of the Clark Fork river.

Red Lodge, the county seat of Carbon county, is a thriving, bustling little city of something over 4,000 people, and has an assured and brilliant future before it. The other towns in the county are Bridger and Joliet. Both are having a healthy growth and promise to be cities in the near future.
The climate of Carbon county, taken the year round, is as healthy as in any portion of the United States. The reports of the signal service observers show that this section of Montana enjoys more sunshine than any section of the country in the world. The winters are presumably cold, but of recent years climatic conditions have changed, and very cold weather is the exception. In the lower valleys it gets extremely warm during the summer, but the heat is not of the debilitating character, and, by reason of the altitude and close proximity to the mountains, the nights are always cool. The climate in the fall is delightful. The springs are short but not disagreeable, and, all things considered, a more pleasant place of residence cannot be found for a person enjoying fairly good health.

There is no county in the state that offers safer or more diversified opportunities for the investment of capital or the employment of energy than Carbon county.

Ain't It the Truth?
When we came into this world
We were naked and bare:
As we go through the world,
We have troubles and care.
When we go out of the world—
We know not where,
But if you ride with me here,
You'll ride with me there.

## The Northwestern Gazetteer
FOR 1906

Will contain a descriptive sketch of 7,000 cities, towns, villages and settlements, with the names of all business and professional persons in each place; also a complete classified list of all trades, professions and industries. It is an invaluable buyers’ guide, used by 3,000,000 people.

MONT. AV., BILLINGS
REMEMBER the old adage: IF YOU buy CHEAP, POOR PRINTING, YOU pay the printer; IF YOU buy GOOD printing YOUR CUSTOMER pays the printer. . . .

CLINT. BROWN,
JOB PRINTER
AND
DISTRIBUTOR
BILLINGS,!--:- MONTANA.

Mutual Phone No. 300.

Bell

I am making the unusual a free DOOR to DO SERVICE to my custom service covers the whole My specialty will be the advertising matter and giving con- tribution service at the price of printing. When in need of fine letter-heads, bill-heads, statements, cards, envelopes or other commercial printing, call me up on either phone and I will gladly submit samples and prices in keeping with fine work. I will distribute any printing ordered of me free of charge. It won’t cost anything to read the other side.

CLINT. BROWN.
CLINT. BROWN,
Job Printer and Distributor
BILLINGS, MONTANA.

Regarding my distribution service, I wish to state that I can furnish the most complete service to be found anywhere. Billings is a town which has grown from a small population to about eight thousand people within a couple of years and everything points to a healthy and continued increase. The population of Billings is busy and content with the development, settlement, growth and welfare of what I consider and what every other residenter considers and what every person who stops off here considers the richest and most promising agricultural region in the entire West.

Advertise Billings. I can cover the town in a thorough manner. Write or telephone for further particulars. At present it requires from three to four thousand pieces to cover the town completely, and the town is growing just like the crops are, and you should grow with it. Advertising, not competition, is the life of trade.

CLINT. BROWN, Billings, Montana.

The City Directory
Is a Business and
Social Necessity

It is a Sure index to the
City's Commercial and In-
dustrial growth. The direct-
ory is used by hundreds of
people every day in the year.
It is acknowledged to be one
of the very best mediums
for keeping your name and
business before the public.
Our most successful and
progressive business men
recognize this fact.
